UNIVERSITY

SRS Reminder - Final Date for Students to Submit

19 September SRS: Applications close for 2021

Steps to completing your SRS application

Before you can apply for SRS, you need to apply for undergraduate admission through UAC. When you do, you'll be issued with a UAC application number, which you'll need to commence your SRS application.

There are no fees to apply for SRS, but there is processing fee when you apply for undergraduate admission through UAC.

1. Log in to the SRS application using your UAC application number and PIN. A series of questions and prompts will then guide you through the application process.
2. Enter your Year 11 studies, if prompted to do so in your application.
Applicants in the NSW and ACT school systems: You usually don't have to provide results of your Year 11 studies with your SRS application as UAC obtains them directly from the relevant educational authorities. If you are not prompted to enter your Year 11 studies or to provide documents there is no need to do so.
All other applicants: Enter the details of your Year 11 studies and upload a PDF of your Year 11 school report. If you don't have the PDF ready to upload when you first apply, upload it later by logging back in to SRS Check & Change (which you also access from the UAC website). You must upload your school report in order to have your studies assessed and considered by institutions as part of your SRS application. Uploaded documents cannot be edited or deleted but can be replaced up to three times.
3. Upload institution-specific documents, if required.
4. Review your application summary.
5. Accept the **declaration**.
6. Download your Confirmation of Application.

You can only submit one SRS application.

Nominating your course preferences

You don't need to nominate any courses in your SRS application because it is automatically linked to your list of course preferences in your UAC application for undergraduate admission.

https://www.uac.edu.au/current-applicants/schools-recommendation-schemes?utm_medium=email&utm_campaign=Directions%20July%202020&utm_content=Directions%20July%2020+CID_ae8ec69d507c97a630ba4614f76ec32c&utm_source=Email%20marketing%20software&utm_term=Schools%20Recommendation%20Schemes

EAS Steps to apply

24 December 2021 - EAS: Closing date for EAS applications for January Round 1

22 November 2021 EAS: Closing date for EAS applications for December Round 2

Before starting your application, check the [eligibility criteria](#) for each EAS disadvantage and the general requirements for all documents (below).

Step 1 - Submit your undergraduate application through UAC.

Step 2 - Select 'Apply for EAS' at the bottom of the undergraduate application confirmation page or log in to your completed undergraduate application and select 'EAS'.

Step 3 - Open the category of disadvantage you wish to claim. Select the specific disadvantages that apply to you and answer the follow-up questions. When you have selected all the relevant disadvantages in that category, click 'Save'. Repeat for each category you wish to claim.

Step 4 - Agree to the Declaration and Authority and submit your EAS application.

Step 5 - Download your Confirmation of Application and the document cover sheet for each of your claimed disadvantages. The document cover sheet details the eligibility criteria for the disadvantage and the supporting documents you need to provide.

Step 6 - Upload completed cover sheets and supporting documents to your application at least two weeks before the undergraduate offer round in which you wish to be considered (or as advised in the [key dates](#)).

https://www.uac.edu.au/current-applicants/educational-access-schemes?utm_medium=email&utm_campaign=Directions%20July%202020&utm_content=Directions%20July%2020+CID_ae8ec69d507c97a630ba4614f76ec32c&utm_source=Email%20marketing%20software&utm_term=Educational%20Access%20Schemes

UTS - Engineering and IT Early Entry Program-EDGE

This scheme is specifically for those students who want to study an Engineering or IT degree. Based on broader criteria than the ATAR alone, the Edge Program assesses students' applications on their Year 11 results plus Edge points. More information can be found here:

<https://www.uts.edu.au/about/faculty-engineering-and-information-technology/early-entry-program-edge>

UTS Early Entry Program: Designed for high-achieving school students,

The UTS Early Entry Program allows students to secure a place in their preferred UTS degree based on their Year 11 academic achievements. It's free to apply and is direct to UTS through our online application portal. Applications will open on 10 August. More information can be found here:

<https://www.uts.edu.au/future-students/undergraduate/admission-requirements/admissions-schemes/uts-early-entry-program>

UTS - Women in Engineering and IT Scholarships

Applications are open from 29 April to 5 September 2021.

If you are a woman with a passion and interest to pursue a career in Engineering or IT, just apply!

Scholarships for students commencing in 2022 (2022 Autumn session)

NOT SURE ABOUT APPLYING?

[Hear from some of our current students](#)

Great advice on how to prepare for a successful audition - University of Sydney Conservatorium

Top 5 tips for students

To study at the Sydney Conservatorium of Music, you will need to audition. This can be a nerve-racking experience – but it doesn't have to be. Here, students share their advice on how to prepare for your big moment.

An audition is your opportunity to show us your abilities, and it allows us to assess your skills and discuss your commitment. Here are five tips from those who've already been there to help you prepare:

1. Register for your audition online

If you can't attend in person, you can submit a video-recorded audition. Your recording must be no more than 4 months old.

2. Double check all of the requirements

Make sure you follow the audition requirements for your specialisation. If you're auditioning on an instrument or voice, remember you need to have an accompanist.

3. It all comes down to sound quality

Whatever equipment you're using to record your audition, do your best to maximise the sound quality by choosing your location carefully. If you can, try and use an ensemble room or recital hall. It doesn't need to be recorded professionally, a simple ZOOM recorder is enough.

4. It's not what you play that counts, it's how you play

When selecting repertoire, you want to play it comfortably and well. A piece that's achievable is better than going for something that's difficult. The audition panel will look for quality of performance.

5. Show your personality

An audition panel consists of musicians. Show them that you're one too and that you have a passion for music. Be technically proficient, but don't fret about technique – they'll be on the lookout for potential.

<https://www.sydney.edu.au/music/news-and-events/2019/06/04/how-to-prepare-for-a-successful-audition.html>

University of Sydney Future Leaders Scheme

Nominations open 1 August

Closes mid November

This scheme is for nominated school captains and Dux students at high schools in Australia, who apply through UAC. It offers these students admission to eligible courses with a lower ATAR requirement than the published guaranteed ATAR, in recognition of leadership and academic achievements.

Apply through UAC

School captain (excludes vice/deputy) nominated by your school in Year 12 by the close date

Dux students who receive the highest ATAR/IB in their cohort will be automatically nominated

Place an eligible course as your highest UAC preference in the December Round 2 of offers

Meet all admission criteria for your selected course

<https://www.sydney.edu.au/study/how-to-apply/undergraduate/admission-pathways.html>

University of Sydney Aboriginal Gadigal Program

To receive an early conditional offer to commence study with us in 2022, you must submit your application by 8 August 2021.

The Gadigal Program is our Indigenous student pathway that supports Aboriginal and/or Torres Strait Islander students to study at the University of Sydney.

Through the Gadigal Program you will have:

the opportunity to apply for a Gadigal early conditional offer

lower minimum ATAR requirements

access to an academic skills program before commencing University

ongoing academic and personal support throughout your degree.

Year 12 and post-high school applicants are eligible to apply.

<https://www.sydney.edu.au/study/how-to-apply/undergraduate/admission-pathways/aboriginal-and-torres-strait-islander-pathways.html>

University of Sydney Elite Athletes and Performers Scheme

Applications open 1 August

Closes 31 October

You will be considered an elite athlete if during your HSC year or equivalent, you were an outstanding Australian state and/or representative in a sport recognised by Sport Australia AND your selection to participate significantly and adversely impacted your HSC preparation or equivalent.

You will be considered an elite performer if you performed in extended or significant productions that significantly and adversely impacted your HSC preparation or equivalent.

Your eligibility will also be assessed on the following:

- Time away from studies devoted to competition/performances during your HSC (or equivalent) which have significantly affected your studies.
- The nature of the competition/performance i.e. representation at state, national, or international level during HSC (or equivalent) or during other relevant studies.
- Membership of an institute or academy of sport or member of any performing arts associations/institutes.
- The number of students competing for entry into and the number of places available under the degree program.
- Applicants rank and position in major competitions and performances.

University of Sydney - ARTiculate Talk Series: Agrippina the Younger - Online

Tue 17 August, 12-12.45pm

How does an ancient historian approach the study of a personality in the past? This talk concentrates on different skills, methods and evidence used in understanding Ancient Rome's Agrippina the Younger.

A virtual talk for high school students to enrich their understanding in subjects related to Ancient History.

This talk concentrates on different skills, methods and evidence used in understanding the personality and times of Agrippina the Younger while asking the key question - how does an ancient historian approach the study of a personality in the past? Participants will be introduced to recent interpretations of Agrippina the Younger as well as to some key ancient evidence for the study of this fascinating woman from the ancient world.

Participants will have an opportunity to ask questions during Q&A

<https://www.eventbrite.com.au/e/articulate-ancient-history-agrippina-the-younger-tickets-151770330143>

ACU - Position yourself for future careers in health

26 August. 3pm

Associate Professor Elspeth Froud provides an insight into future career opportunities in health. A growing and in-demand industry, learn how to prepare for these careers.

<https://www.acu.edu.au/about-acu/events/2021/august/position-yourself-for-future-careers-in-health?redirect=%26FilterBy%3dUpcoming%26Year%3d2021%26PageNumber%3d1>

ACU - Passion for Business early entry program is closed and in its place is:

ACU Guarantee Program 2022 for Entry for All ACU Business and Information Technology Courses

Current Year 12 (2021) students are eligible to apply for the [ACU Guarantee Program](#).

The ACU Guarantee program offers eligible Year 12 students a place at ACU based on your Year 11 results, so you guarantee your place at ACU, even before your Year 12 exams have started.

By assessing your Year 11 results, we can give you a predicted selection rank and make you an offer before you sit your HSC/VCE/QCE. Of course, your final exams still matter – and you still need to finish Year 12 to validate your offer – but you can tackle them comforted by the fact that you already have a place in your university degree of choice.

OR

ACU Education Pathways Diploma Programs 2022 Entry

Diploma in Business or Diploma in Information Technology Courses

If you don't quite have the score to get into one of our Business and Information Technology courses directly, the ACU Education Pathways team in collaboration with the Peter Faber Business School has your back with our new Diploma Programs. Current year 12 students, recent school leavers and non-school leavers will have the opportunity to apply for entry into our new Diploma in Business or Diploma in Information Technology. Completion of either Diploma provides students with a direct, fully credited, articulation pathway into 2nd year Bachelor studies here at ACU in Business Administration, Commerce or Information Technology. Diploma students also have the added benefit of extra learning support with smaller classes and valuable face-to-face time with your lecturers/tutors to set you up for a strong and successful university learning experience.

UNSW the Co-op Program Chats

27-29 July

UNSW will host an online series of career focused conversations across the technology, business and engineering sectors.

Hear from industry partners and sponsors, Co-op alumni and current scholars as they share their experience of working and studying in these sectors. We'll also answer any questions that students might have
https://www.eventbrite.com.au/o/unsw-co-op-program-scholarship-8226158832?_cldee=Z2FyeS5ncmFudEBqb2JqdW1wLmNvbS5hdQ%3d%3d&recipientid=contact-5fff33ffa1e7e811a97f000d3ae0654c-6778f5abb32b4941ae546ebaa43e628d&utm_source=ClickDimensions&utm_medium=email&utm_campaign=nurture&esid=c711e793-0ae6-eb11-bacb-002248185ebe

UNSW - Yr 8 to Yr12 Girls - Ever wondered where studying maths and science at school can take you? Young Women In Engineering (YoWIE)

Registrations will open approximately August 2021.

Our next YoWIE event will take place in the April School Holidays 2022 (exact dates to be confirmed).

Please check again to register your interest in attending.

As an engineer, your world is full of opportunities. UNSW Canberra's YoWIE Program is committed to inspiring young women currently in year 9 – 12 to consider a future in engineering. This free three-day workshop aims to show you how your maths and science studies at school can help shape your future.

The YoWIE program began in 2016 and has grown in popularity as more young women join us each year to experience what it's like to be an engineer. By participating in the YoWIE program, you'll have access to a range of hands-on activities, talks by practising female engineers, and the chance to meet other like-minded young women in a fun and supportive environment.

UNSW Women In Engineering Scholarship Program for Students Commencing Term 1, 2022

Closes 30 September 2021

10,000 per annum for the minimum duration of program (up to 6 years)

The UNSW Women in Engineering Scholarships Program aims to encourage and assist female students commencing studies in the Faculty of Engineering at UNSW.

<https://www.scholarships.unsw.edu.au/scholarships/id/1211>

UNSW - Year 9 to 12 Short Course: Current Affairs in Aviation

27th and 28th September, 2021. 9.30am- 3.00pm both days

ONLINE via ZOOM

UNSW Aviation is presenting a two-day course for secondary students during the school holiday break on 27th and 28th September 2021. The course is aimed at those interested in a future career in aviation. The Aviation industry is a global, social and economically important industry that brings people together. From the technically challenging cockpit with awe-inspiring views, to the operational, logistical, safety and financial challenges of managing airports and airlines, UNSW Aviation is uniquely placed to create graduates ready to take on opportunities in this exciting and growing industry.

UNSW School of Aviation is proud to be supporting the Royal Flying Doctor Service (SE Section) with the donation of 100% of the registration fees for this course. All proceeds from the course are being donated to the RFDS.

https://www.aviation.unsw.edu.au/news-events/year-9-12-short-course-current-affairs-aviation-0?_cldee=Z2FyeS5ncmFudEBqb2JqdW1wLmNvbS5hdQ%3d%3d&recipientid=contact-5fff33ffa1e7e811a97f000d3ae0654c-6778f5abb32b4941ae546ebaa43e628d&utm_source=ClickDimensions&utm_medium=email&utm_campaign=nurture&esid=c711e793-0ae6-eb11-bacb-002248185ebe

CQ Interactive Virtual Open Day

31 July 2021

Join us online in the comfort of your living room and connect with CQUni's teaching staff, discover our huge range of TAFE and university courses, and learn more about our outstanding range of online and on-campus support services. Visit course booths and browse course flyers and videos to find out about careers, practical learning opportunities and what you will study in the course. Chat directly with course lecturers, attend webinars and get support on topics

like applying, fees and scholarships, support and more. Plus, our team will be available to chat directly with you to provide career advice and scout out the best study options for you.

Time	Webinar
10am	Study at CQUni Find out more about CQUni and how we can help you become who you want to be!
10.30am	Psychology Our psychology courses provide a great pathway towards a career as a clinical psychologist, plus they are ideal if you have an interest in criminology and justice, research or positive psychology. The transferable nature of our psychology courses will see you experience broad career opportunities across a wealth of professions.
11am	Nursing We'll take you through the detail of how our Bachelor of Nursing can help you become a Registered Nurse (Division 1). Learn how you will be supported by highly trained and experienced nursing lecturers, the latest in learning technology and strong industry connections. Through simulations, clinical experience and enhanced work-integrated-learning opportunities you will be well prepared for a rewarding career in nursing. Don't miss this webinar!
11.30am	Diagnostic Imaging Be exposed to the world of Medical Sonography, Echocardiography and Medical Imaging. You will hear about how you will experience the latest in learning technology, and through simulations, extensive work-integrated-learning opportunities your course will be delivered in ways that enhances your employment outcomes.
12.00pm	Medical Science (Pathway to Medicine) Learn more about CQUniversity's Bachelor of Medical Science (Pathway to Medicine), an innovative course in which successful applicants will be provided a provisional direct entry pathway into The University of Queensland's regionally based Doctor of Medicine program. In this session, we will cover all you will need to know about this innovative course, including how to apply, and ATAR adjustment schemes.
12.30pm	Business and Accounting Join us to explore the evolving world of business and management and our Bachelor of Business. Plus, hear how our accredited Bachelor of Accounting degree will prepare you for the digitally evolving nature of accounting and business.

AusApp Pathways

AusAppPathways is a free app that will help students and jobseekers explore the many careers that can begin through an apprenticeship or traineeship pathway. Search through over 3000 examples of apprenticeship and traineeship occupations.

<http://www.ausapp.com.au/>

Building Trades Subject Selection Guide

Plumbing, Bricklayer, Tiling, Carpentry, Shopfitter, Stonemason, Sign Graphics, Painter, Plasterer, Roofer

These flyers are suitable for both school-based apprenticeships or post-school apprenticeships. Each flyer sets out a possible career path for the student and then suggests the elective subjects that will make that career path possible.

The subject lists cover choices in years 9 & 10 and 11 & 12.

NECA Electrical Apprenticeships

Work on multi-storey buildings, shopping centres, apartments and houses.

- Installation of main and sub-main switchboards
- Power and lighting systems
- Emergency and exit lighting
- Installation of powerpoints and power supplies to specialised equipment

The telecommunications industry is always evolving in phone, optical fibre systems and internet connected devices.

- Computer cabling design and installations
- Telephone/voice systems design and installations
- Optical fibre communication technology
- Building management systems

Install, maintain and repair electrical systems in the growing field in renewable energy systems.

- Solar panel installations
- Battery back up systems
- Smart Grid technology
- Installation and testing of renewable energy equipment and systems
- Working on the transmission of electricity from power stations through high voltage transmission networks to distribution to homes and business via sub stations could be just what you are looking for.
- Or go deep and be a cable jointer looking after the insulated power supply and control cables installed.

What's a BlueScope Illawarra apprenticeship?

Opens August

We offer apprenticeships in mechanical and electrical trades. You will work with expert tradesmen on some of the largest industrial equipment in Australia. Some departments at the Steelworks offer the opportunity for a rotation every 6-12 months, and you will attend the Wollongong Campus of TAFE Illawarra to complete your Certificate III, and licence if necessary.

Applications open in August through our partner [Hunter Valley Training Company](#). In the first eight weeks you will participate in 'site ready' training, gaining experience with many of the tools you will use and the safety procedures you will experience on our site.

Apply online through the [Hunter Valley Training Company](#).

GENERAL

Harding Miller Scholarship Applications Open

Closes on Wednesday the 15th September, 2021

The Harding Miller Education Foundation Scholarship Program's mission is to create a positive social impact by lifting educational outcomes of high potential Australian girls currently experiencing disadvantage.

The Harding Miller Education Foundation is an Australian charity that supports high potential but socio-economically disadvantaged girls across Australia through a \$20,000 scholarship over four years of high school. Our program gives these girls the tools and resources they need to not only complete high school but to reach their potential and build direct pathways to tertiary education. We have awarded 600 scholarships since 2016 across 320+ schools in every state and territory of Australia.

Careers with STEM: Apprenticeships and Traineeships

25 August. 12.00 to 1pm

University is great for some, but apprenticeships and traineeships combine the best of both worlds. You get to study at TAFE working towards a VET qualification certificate, and work on-the-job, learning and earning a wage. In some cases, the government will even cover your training fees. Winning!

To find out more about Apprenticeships and Traineeships, and hear from those who have carved a successful career path via VET, join this webinar.

<https://www.eventbrite.com.au/e/careers-with-stem-apprenticeships-and-traineeships-tickets-162000023431?aff=ebdsoporgprofile>

Next Gen Careers: Future Energy

8 September. 12.00 to 1pm

Relying on fossil fuels for our energy resources has created big challenges for our planet. We're now focusing on renewable, clean energy resources, but we need ways to find, extract, store and recycle that energy. The job of a future energy specialist is to find those solutions.

Interested in a career as a Future Energy Specialist? Join this webinar to learn more and meet the people who are shaping our energy future.

You can ask them your burning career questions and hear their tips for study and work plus what their day-to-day job involves. Register for the event here.

<https://www.eventbrite.com.au/e/next-gen-careers-future-energy-tickets-161999233067?aff=ebdsoporgprofile>

Discover a Career in Podiatry

The feet are often overlooked when people consider their health. But when you think about how important the feet are for mobility, independence and every day activities, you will understand what an important role podiatrists play. There is a range of movements of the feet and lower limb that can be classified as “normal” and it can be challenging to define abnormal movement

Often people who have played a lot of sport when growing up become interested in this area as they understand the importance of the feet

How I got the job – Episode 1, 'The Nurse'

Alex has had a keen interest in health for as long as she can remember. In high school she took up the opportunity to study nursing through TAFE while working part-time in a nursing home.

This affirmed her passion for nursing. Through her Vocational Education and Training (VET) qualifications, she was then able to gain early entry into a Bachelor of Nursing. She's now working in her dream job.

The How I Got The Job series shows young Australians talking about how VET helped them to find direction and achieve success in a field they're passionate about. There are a lot of misconceptions about VET. Yet, through this series we learnt these pathways help build real skills for real careers and open up a variety of employment opportunities across lots of different industries.

ASD Cyber EXP - Free Program Available Now

ASD CyberEXP will take you through a day in the life of five cyber specialists experts working in the Australian Signals Directorate helping to secure the government's information, services and personnel.

The ASD CyberEXP sponsored by the Australian Signals Directorate, is an interactive online cyber career exploration experience run on the LifeJourney platform.

It enables students to test drive a day in the life of five ASD cyber professionals.

Users will participate in challenging real-life cyber scenarios, discover the skills and tools used by these ASD cyber mentors, and explore the vast number of careers available in cyber security today.

Why should students participate?

The ASD CyberEXP is a powerful and exciting way for students to see and experience the benefit of following a cyber and STEM education pathway. By participating in the ASD CyberEXP, students will be more prepared to make decisions for their future.

The Big Meet 2022 Sydney – Save The Date

Wednesday 23 March 2022, 11.00am - 2.00pm

The Gallery, International Convention Centre Sydney

Every year Australia's leading employers travel the country looking for high quality graduates and undergraduates.

The Big Meet is your opportunity to meet up to 100 of these organisations in one day and in one location.

These organisations are offering a range of options including graduate employment, voluntary work, gap years, international internships, vacation work, postgraduate education, teaching, travel and overseas opportunities.

Whatever your interests, The Big Meet has something that will meet YOUR needs.

Many of our exhibiting organisations close applications in March/April 2022 - so make sure you meet them before it is too late!

The Big Meet is FREE. Come along and plan your future, meet some great people, have fun... and pick up some free stuff along the way!

<https://www.thebigmeet.com.au/>

Letz Live - The UK is opening up with all restrictions to be lifted 19 July.

65% of the adult population have been fully vaccinated with 88% receiving their first dose. Due to increased capacity from UK schools, Letz Live have extended Gap Year applications for January 2022 to the UK. For travel updates follow Letz Live on LinkedIn:

Hot Courses Abroad

Hotcourses Abroad is one of 11 international sites at [IDP Connect](#) serving the needs of international students. IDP Connect, which is a division of IDP Education, has built the most comprehensive search comparison websites in the world. Our dedicated teams are based in offices across the globe including Sydney, Chennai, Delhi, London and Boston. We help international students find the perfect course and university with tailored advice and guidance through every step of their research journey.

Hotcourses Abroad hosts more than 2,700 higher education providers and 250,000+ courses in 67 countries.

Prospective students can use our sophisticated filtering and course matching tools to find what's right for them. This might include comparing IELTS scores and grades with university entry requirements for a better understanding of where to apply. All of this combined with prospectuses, student reviews, international news and a wide variety of articles, enables international students to make an informed decision about their study abroad plans.

Living on Campus

If you are heading to uni next year then it is highly likely that you have been considering your accommodation options. Residential colleges and halls of residence are the most popular options, and ones which are commonly associated with the university experience.

Most students choose to live at colleges and halls of residence because they provide a great opportunity to live close to (or on) campus, become totally immersed in university life and make lifelong friends. While student apartments and shared rental houses may also offer proximity to campus and good social opportunities, residential colleges and halls pride themselves on the well-rounded experience they offer.

JB Fairfax Award for Rural Journalism

Submissions close at midnight 8 August 2021

The JB Fairfax Award for Rural & Regional Journalism and Communications is a prestigious national award that encourages and supports a young student who is passionate about pursuing a career in rural and regional journalism/communications upon graduation. The Award was established through a private donation from Mr John B Fairfax AO.

The Award

This Award is an outstanding opportunity to gain a diverse range of practical experience at the coalface of rural and regional reporting, with three relevant internships that will provide a launch pad to a career telling the rich stories from country Australia.

The Award includes a \$10,000 scholarship along with the following suite of internships providing practical work experience with:

The Royal Agricultural Society of NSW (RAS) Media Team at the Sydney Royal Easter Show

Australian Community Media at The Land Newspaper

Australian Broadcasting Corporation (ABC) in their Brisbane newsroom

Space Weather and the Path to Mars - Einstein Lecture

17 August. 6.30pm online

The School of Physics at UNSW is proud to present this year's National Sciences Week's Einstein Lecture on Space Weather and the Path to Mars. Opened by renowned astrophysicists, Professor Sarah Brough and Dr Graeme Melville, this year's speakers will be Professor Iver Cairns from the University of Sydney and Associate Professor Susanna Guatelli from the University of Wollongong,

Professor Cairns will discuss activity on the Sun's surface which creates a type of weather called space weather. Taking the form of solar flares, coronal mass ejections, bursts of X-rays, radio waves, and energetic particles that travel across interplanetary space, space weather effects at the Earth in significant ways. It damages and increases drag on satellites, causes electrical blackouts, and it also produces the Earth's aurora. Although the Earth's atmosphere and magnetic field protects us from the majority of solar wind effects, astronauts do not have the same protection from solar radiation and galactic cosmic rays. The risks from space weather to humans travelling to and living on Mars are thus large.

Young Scientist Deadline for online submission of ALL SECONDARY Investigation Projects

Wednesday 25th August 2021

Scientific Investigations

Mathematical Investigations

Innovation and Engineering Design Projects

Projects may be entered into one or more of the following STEM categories: Technology, Scientific Investigations and Mathematical Investigations. The same project may be entered into more than one STEM category; however it must be entered separately via the online entry form.

Year 11 and 12 Science students can also enter their Depth Study (completed as part of a NESA certified Year 11 or 12 Science course) into our special Rowe Scientific Depth Study category. If the Depth study involved a practical investigation, students may also enter it into a Science discipline such as Biology, Chemistry, Physics or Earth and Environmental Science. They must enter this Science discipline separately.

Due to the ongoing COVID-19 situation there will be no delivery or setup of te

Rotary Youth Leadership Awards (RYLA)

Do you have what it takes to become a dynamic leader and change yourself and the world?

Rotary Youth Leadership Awards (RYLA) is an intensive leadership experience organized by Rotary clubs and districts where you develop your skills as a leader while having fun and making connections.

What's involved?

RYLA events are organized locally by Rotary clubs and districts for participants ages 14-30. Depending on community needs, RYLA may take the form of a one-day seminar, a three-day retreat, or a weeklong camp. Typically, events last 3-10 days and include presentations, activities, and workshops covering a variety of topics.

Your community might host a RYLA event for secondary school students to hone their leadership potential, for university students to develop creative problem-solving strategies, or for young professionals to learn ethical business practices.

How can I participate?

RYLA participants are nominated by local Rotary clubs. **Contact your local Rotary club** to find out more about RYLA events in your area, how to apply, and any costs of getting involved.

https://www.rotary.org/en/our-programs/rotary-youth-leadership-awards?gclid=EAlaIqObChMIxYfA65vv6gIVxrWWCh1CWgL6EAAYASAAEgKKqfD_BwE

SCIENCE WEEK EVENTS – Something for everyone!

In-person and online events, virtual tours, DIY science

and more, all across Australia, from 14 - 22 August Running each year in August, it features more than 1000 events around Australia, including those delivered by universities, schools, research institutions, libraries, museums and science centres.

<https://www.scienceweek.net.au/find-events/?location-string=new+south+wales&location-id=&location-postcode=&location-suburb=&location-state=&location-type=&location-lat=&location-lng=&event-type=online&event-list-page=1&keyword=&date-range=>

The Science of Us: Limit your screen time

Thursday 5 August. 11.30am to 12.30pm

Join us on the first Thursday of every month during winter for The Science of Us program, run in partnership with Inspiring Australia. Hear from scientists, researchers, authors and academics on topics that help us to understand troubling human behaviour through the prism of science.

Worried about how much time you and your family are spending on screens and the impact this is having on your ability to concentrate and communicate with each other? Discover the latest thinking on what too much screen time does to our brains and learn scientifically proven techniques for resisting the pull of our digital devices.

Cognitive neuroscientist Dr Mark Williams will explain why interacting with our devices is so compelling, what happens to our brains when we do, and outline a pragmatic approach to setting limits that will be effective in helping us understand and change our behaviour.

<https://www.scienceweek.net.au/event/the-science-of-us-limit-your-screen-time/>

SciFest 2021

SciFest is on again between 2 – 27 August. SciFest aligns with National Science week in August and is a virtual excursions festival promoting science and technology. Join some of Australia's best science presenters for this dynamic month of science.

SciFest is a great opportunity to engage your students in a variety of live, by request or on demand science workshops and events.

Key Events

School Science Shows: 16 – 19 August at 2pm

After School Science Show: 16 – 19 August at 4pm

Science Showcase: Monday 23 August

<https://www.scienceweek.net.au/event/scifest-2021/>

FOR CAREERS ADVISERS

Engineers Australia Discover Engineering

18 August

Zoomed into school classrooms for Years 7-10. Activities use Engineering Design Process (design thinking/project based learning); tasks include EWB - floating houses; Cool Aeronautics - design, build, test your own plane; and Quantum Gamification! by Sydney Quantum Academy. Groups of 20-40 students in Years 7-10. more

University of Sydney - Mega Maths Day

Friday 6 August, 9am-2.30pm

Year 9 – 10 students

This day of hands-on STEM activities has been designed to inspire students and showcase a variety of disciplines and careers where maths can take them. \$22 per student, teachers free.

A day of mathematical hands-on activities in a variety of science disciplines for year 9 & 10 high school classes in labs and workshops!

No matter what your students choose to do in the future, maths will be a part of it: from maths models that help predict which latest fashion items will sell out, to calculations that allow you to build bridges, to statistics that show what people think of a business, to computations that help in the understanding of diseases.

Your students will discover how maths is involved in pretty much every area of life at Mega Maths Day. Year 10 is a key time when your students are choosing their future direction, so give them the opportunity to find out just how important a solid background in maths is for a huge array of disciplines and careers. Your students will be inspired by how maths studies will open doors in their future during this Mega Maths Day full of workshops showcasing the importance of maths in a variety of settings.

<https://www.eventbrite.com.au/e/mega-maths-day-2021-tickets-161185503179>

Science Week 2021 - Teacher Resource Book

The school theme for National Science Week 2021 is Food: Different by Design. It honors the United Nations International Year of Fruits and Vegetables and the International Year of Creative Economy for Sustainable Development.

The Food: Different by Design [teaching resource book](#) (15.3 MB, pdf) covers a broad range of areas in food production and sustainable agriculture, enabling students to explore topics such as biosecurity, food technology and laboratory-developed foods. Scientific development is at the core to the theme, with hands-on projects for students from Foundation to Year 10 to explore.

There's also a matching [student journal](#) (4MB, pdf) and a complementary [Indigenous perspectives teaching resource book](#) (8.3 MB, pdf).

<https://www.scienceweek.net.au/schools/>

The only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle.
