Great advice on how to prepare for a successful audition - University of Sydney Conservatorium

Top 5 tips for students

To study at the Sydney Conservatorium of Music, you will need to audition. This can be a nerve-racking experience – but it doesn't have to be. Here, students share their advice on how to prepare for your big moment.

An audition is your opportunity to show us your abilities, and it allows us to assess your skills and discuss your commitment. Here are five tips from those who've already been there to help you prepare:

1. Register for your audition online

If you can't attend in person, you can submit a video-recorded audition. Your recording must be no more than 4 months old.

2. Double check all of the requirements

Make sure you follow the audition requirements for your specialisation. If you're auditioning on an instrument or voice, remember you need to have an accompanist.

3. It all comes down to sound quality

Whatever equipment you're using to record your audition, do your best to maximise the sound quality by choosing your location carefully. If you can, try and use an ensemble room or recital hall. It doesn't need to be recorded professionally, a simple ZOOM recorder is enough.

4. It's not what you play that counts, it's how you play

When selecting repertoire, you want to play it comfortably and well. A piece that's achievable is better than going for something that's difficult. The audition panel will look for quality of performance.

5. Show your personality

An audition panel consists of musicians. Show them that you're one too and that you have a passion for music. Be technically proficient, but don't fret about technique – they'll be on the lookout for potential.

JB Fairfax Award for Rural Journalism

Submissions close at midnight 8 August 2021

The JB Fairfax Award for Rural & Regional Journalism and Communications is a prestigious national award that encourages and supports a young student who is passionate about pursuing a career in rural and regional journalism/communications upon graduation. The Award was established through a private donation from Mr John B Fairfax AO.

The Award

This Award is an outstanding opportunity to gain a diverse range of practical experience at the coalface of rural and regional reporting, with three relevant internships that will provide a launch pad to a career telling the rich stories from country Australia.

The Award includes a \$10,000 scholarship along with the following suite of internships providing practical work experience with:

The Royal Agricultural Society of NSW (RAS) Media Team at the Sydney Royal Easter Show

Australian Community Media at The Land Newspaper

Australian Broadcasting Corporation (ABC) in their Brisbane newsroom

University of Sydney Elite Athletes and Performers Scheme

Applications open 1 August

Closes 31 October

You will be considered an elite athlete if during your HSC year or equivalent, you were an outstanding Australian state and/or representative in a sport recognised by Sport Australia AND your selection to participate significantly and adversely impacted your HSC preparation or equivalent.

You will be considered an elite performer if you performed in extended or significant productions that significantly and adversely impacted your HSC preparation or equivalent.

Your eligibility will also be assessed on the following:

- Time away from studies devoted to competition/performances during your HSC (or equivalent) which have significantly affected your studies.

- The nature of the competition/performance i.e. representation at state, national, or international level during HSC (or equivalent) or during other relevant studies.
- Membership of an institute or academy of sport or member of any performing arts associations/institutes.
- The number of students competing for entry into and the number of places available under the degree program.
- Applicants rank and position in major competitions and performances.

UNSW the Co-op Program Chats

27-29 July

UNSW will host an online series of career focused conversations across the technology, business and engineering sectors.

Hear from industry partners and sponsors, Co-op alumni and current scholars as they share their experience of working and studying in these sectors. We'll also answer any questions that students might have

https://www.eventbrite.com.au/o/uns-w-co-op-program-scholarship-8226158832?cldee=Z2FyeS5ncmFudEBqb2JqdW1wLmNvbS5hdQ%3d%3d&recipientid=contact-5fff33ffa1e7e811a97f000d3ae0654c-6778f5abb32b4941ae546ebaa43e628d&utm_source=ClickDimensions&utm_medium=email&utm_campaign=nurtur&esid=c711e793-0ae6-eb11-bacb-002248185ebe

UNSW - Yr 8 to Yr12 Girls - Ever wondered where studying maths and science at school can take you?

Young Women In Engineering (YoWIE)

Registrations will open approximately August 2021.

Our next YoWIE event will take place in the April School Holidays 2022 (exact dates to be confirmed).

Please check again to register your interest in attending.

As an engineer, your world is full of opportunities. UNSW Canberra's YoWIE Program is committed to inspiring young women currently in year 9 – 12 to consider a future in engineering. This free three-day workshop aims to show you how your maths and science studies at school can help shape your future.

The YoWIE program began in 2016 and has grown in popularity as more young women join us each year to experience what it's like to be an engineer. By participating in the YoWIE program, you'll have access to a range of hands-on activities, talks by practising female engineers, and the chance to meet other like-minded young women in a fun and supportive environment.

Careers with STEM: Apprenticeships and Traineeships

25 August. 12.00 to 1pm

University is great for some, but apprenticeships and traineeships combine the best of both worlds. You get to study at TAFE working towards a VET qualification certificate, and work on-the-job, learning and earning a wage. In some cases, the government will even cover your training fees. Winning!

To find out more about Apprenticeships and Traineeships, and hear from those who have carved a successful career path via VET, join this webinar.

<https://www.eventbrite.com.au/e/careers-with-stem-apprenticeships-and-traineeships-tickets-162000023431?aff=ebdsoporgprofile>

Next Gen Careers: Future Energy

8 September. 12.00 to 1pm

Relying on fossil fuels for our energy resources has created big challenges for our planet. We're now focusing on renewable, clean energy resources, but we need ways to find, extract, store and recycle that energy. The job of a future energy specialist is to find those solutions.

Interested in a career as a Future Energy Specialist? Join this webinar to learn more and meet the people who are shaping our energy future.

You can ask them your burning career questions and hear their tips for study and work plus what their day-to-day job involves. Register for the event here.

<https://www.eventbrite.com.au/e/next-gen-careers-future-energy-tickets-161999233067?aff=ebdsoporgprofile>

Discover a Career in Podiatry

The feet are often overlooked when people consider their health. But when you think about how important the feet are for mobility, independence and every day activities, you will understand what an important role podiatrists play. There is a range of movements of the feet and lower limb that can be classified as "normal" and it can be challenging to define abnormal movement

Often people who have played a lot of sport when growing up become interested in this area as they understand the importance of the feet

<https://www.myhealthcareer.com.au/podiatry-career/>

How I got the job – Episode 1, 'The Nurse'

Alex has had a keen interest in health for as long as she can remember. In high school she took up the opportunity to study nursing through TAFE while working part-time in a nursing home.

This affirmed her passion for nursing. Through her Vocational Education and Training (VET) qualifications, she was then able to gain early entry into a Bachelor of Nursing. She's now working in her dream job.

The How I Got The Job series shows young Australians talking about how VET helped them to find direction and achieve success in a field they're passionate about. There are a lot of misconceptions about VET. Yet, through this series we learnt these pathways help build real skills for real careers and open up a variety of employment opportunities across lots of different industries.

Space Weather and the Path to Mars - Einstein Lecture

17 August. 6.30pm online

The School of Physics at UNSW is proud to present this year's National Sciences Week's Einstein Lecture on Space Weather and the Path to Mars. Opened by renowned astrophysicists, Professor Sarah Brough and Dr Graeme Melville, this year's speakers will be Professor Iver Cairns from the University of Sydney and Associate Professor Susanna Guatelli from the University of Wollongong, Professor Cairns will discuss activity on the Sun's surface which creates a type of weather called space weather. Taking the form of solar flares, coronal mass ejections, bursts of X-rays, radio waves, and energetic particles that travel across interplanetary space, space weather effects at the Earth in significant ways. It damages and increases drag on satellites, causes electrical blackouts, and it also produces the Earth's aurora. Although the Earth's atmosphere and magnetic field protects us from the majority of solar wind effects, astronauts do not have the same protection from solar radiation and galactic cosmic rays. The risks from space weather to humans travelling to and living on Mars are thus large.

SCIENCE WEEK EVENTS – Something for everyone!

In-person and online events, virtual tours, DIY science

and more, all across Australia, from 14 - 22 August Running each year in August, it features more than 1000 events around Australia, including those delivered by universities, schools, research institutions, libraries, museums and science centres.

<https://www.scienceweek.net.au/find-events/?location-string=new+south+wales&location-id=&location-postcode=&location-suburb=&location-state=&location-type=&location-lat=&location-lng=&event-type=online&event-list-page=1&keyword=&date-range=>

The Science of Us: Limit your screen time

Thursday 5 August. 11.30am to 12.30pm

Join us on the first Thursday of every month during winter for The Science of Us program, run in partnership with Inspiring Australia. Hear from scientists, researchers, authors and academics on topics that help us to understand troubling human behaviour through the prism of science.

Worried about how much time you and your family are spending on screens and the impact this is having on your ability to concentrate and communicate with each other? Discover the latest thinking on what too much screen time does to our brains and learn scientifically proven techniques for resisting the pull of our digital devices.

Cognitive neuroscientist Dr Mark Williams will explain why interacting with our devices is so compelling, what happens to our brains when we do, and outline a pragmatic approach to setting limits that will be effective in helping us understand and change our behaviour.

<https://www.scienceweek.net.au/event/the-science-of-us-limit-your-screen-time/>

SciFest 2021

SciFest is on again between 2 – 27 August. SciFest aligns with National Science week in August and is a virtual excursions festival promoting science and technology. Join some of Australia's best science presenters for this dynamic month of science. SciFest is a great opportunity to engage your students in a variety of live, by request or on demand science workshops and events.

School Science Shows: 16 – 19 August at 2pm

After School Science Show: 16 – 19 August at 4pm

Science Showcase: Monday 23 August

University of Sydney - ARTiculate Talk Series: Agrippina the Younger - Online

Tue 17 August, 12-12.45pm

How does an ancient historian approach the study of a personality in the past? This talk concentrates on different skills, methods and evidence used in understanding Ancient Rome's Agrippina the Younger.

A virtual talk for high school students to enrich their understanding in subjects related to Ancient History.

This talk concentrates on different skills, methods and evidence used in understanding the personality and times of Agrippina the Younger while asking the key question - how does an ancient historian approach the study of a personality in the past? Participants will be introduced to recent interpretations of Agrippina the Younger as well as to some key ancient evidence for the study of this fascinating woman from the ancient world.

Participants will have an opportunity to ask questions during Q&A

ACU - Passion for Business early entry program is closed and in its place is:

ACU Guarantee Program 2022 for Entry for All ACU Business and Information Technology Courses

Current Year 12 (2021) students are eligible to apply for the [ACU Guarantee Program](#).

The ACU Guarantee program offers eligible Year 12 students a place at ACU based on your Year 11 results, so you guarantee your place at ACU, even before your Year 12 exams have started.

By assessing your Year 11 results, we can give you a predicted selection rank and make you an offer before you sit your HSC/VCE/QCE. Of course, your final exams still matter – and you still need to finish Year 12 to validate your offer – but you can tackle them comforted by the fact that you already have a place in your university degree of choice.

OR

ACU Education Pathways Diploma Programs 2022 Entry

Diploma in Business or Diploma in Information Technology Courses

If you don't quite have the score to get into one of our Business and Information Technology courses directly, the ACU Education Pathways team in collaboration with the Peter Faber Business School has your back with our new Diploma Programs. Current year 12 students, recent school leavers and non-school leavers will have the opportunity

to apply for entry into our new Diploma in Business or Diploma in Information Technology. Completion of either Diploma provides students with a direct, fully credited, articulation pathway into 2nd year Bachelor studies here at ACU in Business Administration, Commerce or Information Technology. Diploma students also have the added benefit of extra learning support with smaller classes and valuable face-to-face time with your lecturers/tutors to set you up for a strong and successful university learning experience.

Great advice on how to prepare for a successful audition - University of Sydney Conservatorium

Top 5 tips for students

To study at the Sydney Conservatorium of Music, you will need to audition. This can be a nerve-racking experience – but it doesn't have to be. Here, students share their advice on how to prepare for your big moment.

An audition is your opportunity to show us your abilities, and it allows us to assess your skills and discuss your commitment. Here are five tips from those who've already been there to help you prepare:

1. Register for your audition online

If you can't attend in person, you can submit a video-recorded audition. Your recording must be no more than 4 months old.

2. Double check all of the requirements

Make sure you follow the audition requirements for your specialisation. If you're auditioning on an instrument or voice, remember you need to have an accompanist.

3. It all comes down to sound quality

Whatever equipment you're using to record your audition, do your best to maximise the sound quality by choosing your location carefully. If you can, try and use an ensemble room or recital hall. It doesn't need to be recorded professionally, a simple ZOOM recorder is enough.

4. It's not what you play that counts, it's how you play

When selecting repertoire, you want to play it comfortably and well. A piece that's achievable is better than going for something that's difficult. The audition panel will look for quality of performance.

5. Show your personality

An audition panel consists of musicians. Show them that you're one too and that you have a passion for music. Be technically proficient, but don't fret about technique – they'll be on the lookout for potential.

ACU - Passion for Business early entry program is closed and in its place is:

ACU Guarantee Program 2022 for Entry for All ACU Business and Information Technology Courses

Current Year 12 (2021) students are eligible to apply for the [ACU Guarantee Program](#).

The ACU Guarantee program offers eligible Year 12 students a place at ACU based on your Year 11 results, so you guarantee your place at ACU, even before your Year 12 exams have started.

By assessing your Year 11 results, we can give you a predicted selection rank and make you an offer before you sit your HSC/VCE/QCE. Of course, your final exams still matter – and you still need to finish Year 12 to validate your offer – but you can tackle them comforted by the fact that you already have a place in your university degree of choice.

OR

ACU Education Pathways Diploma Programs 2022 Entry

Diploma in Business or Diploma in Information Technology Courses

If you don't quite have the score to get into one of our Business and Information Technology courses directly, the ACU Education Pathways team in collaboration with the Peter Faber Business School has your back with our new Diploma Programs. Current year 12 students, recent school leavers and non-school leavers will have the opportunity to apply for entry into our new Diploma in Business or Diploma in Information Technology. Completion of either Diploma provides students with a direct, fully credited, articulation pathway into 2nd year Bachelor studies here at ACU in Business Administration, Commerce or Information Technology. Diploma students also have the added benefit of extra learning support with smaller classes and valuable face-to-face time with your lecturers/tutors to set you up for a strong and successful university learning experience.

ASD Cyber EXP - Free Program Available Now

ASD CyberEXP will take you through a day in the life of five cyber specialists experts working in the Australian Signals Directorate helping to secure the government's information, services and personnel.

The ASD CyberEXP sponsored by the Australian Signals Directorate, is an interactive online cyber career exploration experience run on the LifeJourney platform.

It enables students to test drive a day in the life of five ASD cyber professionals.

Users will participate in challenging real-life cyber scenarios, discover the skills and tools used by these ASD cyber mentors, and explore the vast number of careers available in cyber security today.

Why should students participate?

The ASD CyberEXP is a powerful and exciting way for students to see and experience the benefit of following a cyber and STEM education pathway. By participating in the ASD CyberEXP, students will be more prepared to make decisions for their future.

OTHER FIELDS

UNSW - Year 9 to 12 Short Course: Current Affairs in Aviation

27th and 28th September, 2021. 9.30am- 3.00pm both days

ONLINE via ZOOM

UNSW Aviation is presenting a two-day course for secondary students during the school holiday break on 27th and 28th September 2021. The course is aimed at those interested in a future career in aviation. The Aviation industry is a global, social and economically important industry that brings people together. From the technically challenging cockpit with awe-inspiring views, to the operational, logistical, safety and financial challenges of managing airports and airlines, UNSW Aviation is uniquely placed to create graduates ready to take on opportunities in this exciting and growing industry.

UNSW School of Aviation is proud to be supporting the Royal Flying Doctor Service (SE Section) with the donation of 100% of the registration fees for this course. All proceeds from the course are being donated to the RFDS.
