

## 2024 AUSTRALIAN MATHEMATICS COMPETITION

Dear Parent / Caregiver

Your student is invited to take part in the 2024 Australian Mathematics Competition (AMC). It will be held at school during period 4 on Tuesday, 6 August 2024.

In this competition, students are given 75 minutes to solve 25 multiple-choice problems and 5 free response questions. At the beginning of the paper the problems are very easy; all students should be able to attempt them. The problems get progressively more difficult until the end, when they are challenging to the most gifted student. Students of all standards are able to make progress and find a point of challenge. There are 3 papers: the Junior Paper (Years 7 and 8), Intermediate Paper (Years 9 and 10) and Senior Paper (Years 11 and 12).

We strongly recommend our students take part in the competition, as they will have the opportunity to participate in a large event attempting the same problems as students in other schools and other countries. They will also receive a certificate or award commensurate with their performance and feedback that will help them improve their performance in Mathematics.

The cost of the competition is \$8.00.

It is a compulsory event for **all Students** in the top Mathematics class in every year. So, all students in 7A, 8MA, 9MJ, 10MJ and 11 Extension 1 are expected to participate in the competition. All other students are welcome to join the competition and we hope that many students will take this opportunity. If you have any enquiries, please contact Mr Nguyen (Maths Faculty) at the school on 9718 1805.

Yours sincerely

  
R. Andrews  
RELIEVING PRINCIPAL
